

## OUR HISTORY

In the early 1930's Raymond Thompson and his father began farming in Southern Brooks County, Georgia. Their goal was to grow top quality produce for the surrounding areas. Continuing the tradition of a family owned farm, and fulfilling a lifelong dream, Andrew Thompson along with Raymond opened Thompson Farms Smokehouse.

We provide our customers with an all natural pork product with a superior flavor. Our meat is healthier than similar products offered in large markets and retail stores.

Our meat is extremely succulent. We meticulously select the breeding stock to insure this quality.
